

2021.06.04

To whom it may concern

I'm an undergraduate at BSc (Hons) Software Engineering degree at Informatics Institute of Technology(IIT), affiliated with the University of Westminster, UK and currently, I'm seeking a job opportunity to work as an Intern Software Engineer.

I'm passionate about client-side web development and have two years of experience in using them in projects. I'm thrilled at the opportunity to show off my technical expertise and leadership skills as part of your team.

During my degree program, I have developed proven critical thinking, teamwork, multi-tasking, good communication, studied and have vast experience in Programming languages(Java, Python), Mobile Application development, and Web development technologies(ReactJs), which I hope to leverage into the Intern Software Engineer role at your company.

Finally, I'm a hardworking and fast-learning individual who is capable of catching up with new technologies and concepts.

I have uploaded my CV and I'm looking forward to hearing from you.

Thank you.

Sincerely,
